Conditions

Scheveningen Noord: 5.9 s means closely spaced waves, with little time between crests. W wind blows toward shore and can add chop to the wave faces. I can feel it in my nuggets man.

Hoek van Holland: 5.7 s means closely spaced waves, with little time between crests. W wind blows toward shore and can add chop to the wave faces.

Vlieland — North Sea: 7.2 s means more space between waves than in short-period wind waves. WNW wind blows toward shore and can add chop to the wave faces.
